in dimitrios-zervas123 ○ dimitrisz123

SUMMARY

Talented full stack web developer, with huge potential and experience in creating front end applications using react.js and backend restfull api servers using express.js.

EDUCATION

Piraeus University of Applied Sciences

Bachelor in Automation Engineering 2015

EMPLOYMENT

Freelance, *Full Stack developer*   May 2018 - Current

- Built several projects from scratch implementing UI designs and using the best practices in order to make the apps fast.
- Wrote the front end using react, CSS3 and HTML5 with a focus in performance optimization.
- Wrote the back end restful api server using node.js and express.js, using hashing algorithms to secure the passwords, creating a postgresql database.
- Deployed the front end on Github and the back end on Heroku.
- Utilized front end: ES6, HTML5. CSS3, React.js, Circle CI
- Utilized back end: Node.js, Express.js, bcrypt, PostgreSQL, Heroku

SKILLS

React.js, Express.js, PostgreSQL, Node.js, Redux, Continuous Integration

PROJECTS

Image Recognition app   May 2018 - Current

Developed an app that recognizes over 11,000 different concepts including objects, themes, moods, and more by providing a url or by uploading your own image.

Chat app   May 2018 - Current
